Fixed Height Workstations and Meeting

[www.planscape.co.uk](http://www.planscape.co.uk)

A sleek and elegantly angled leg frame defines the clean lines of the Reflex range giving a contemporary, executive appearance. The legs connect to a full steel sub-frame for maximum strength and stability. An optional horizontal and vertical wire management solution can be added to house cables, leaving the area free from trailing wires. Angled modesty panels are compatible with Reflex desking, adding an element of privacy and complementing the angles of the leg frame.
